Dear Sir :- In moving I have found the accompanying material regarding the Metropolitan Park Flora a church by that I believe was in part responsible for the formation of the NEB club.

Please use this material as may seem best to you, by filing it as a whole or by selecting the most important parts + eliminating the remainder

Yours sincerely

Dear Mr Manning

I send preliminary list of the ferns & allies so far as I have specimens to verify it by.

You will see that I have nothing from Stony Brook & little from Beaver Brook but I will try to give both y those sections some attention myself during the coming season which I hope will greatly up fuller returns than the last one did

Very Truly Yours
